

# DuraPAC Pro

## Compatible

## Powerful

## Robust

The DuraPAC Pro is a powerful and robust portable computer suitable for tough environments and mobile applications. The aluminum and steel construction allows for it to be both lightweight and rugged. The steel design maintains the ruggedness and integrity of the model while at the same time, the aluminum allows it to be lightweight.

The DuraPAC Pro comes with a 2K display by default but can be upgraded to a 4K display with multi-touch projected capacitive touch technology upon request. It can be used in a number of applications such as virtual reality, test and measurement, and more. It supports any 360° cameras and software on the market. For more information on the power of this portable computer, please contact us to speak with one of our sales engineers.

**ALL-IN-ONE 4K  
PORTABLE PLATFORM**

<b>Model</b>	<b>DuraPAC Pro</b>
